Identifying and Reducing Diabetes and Obesity Related Health Disparities within Healthcare Systems (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	PA-07-388
Opportunity Category:	Discretionary
CFDA Number:	93.847 -- Diabetes, Endocrinology and Metabolism Research
Cost Sharing or Matching Requirement:	No
Current Closing Date for Applications:	Multiple Receipt Dates - See Link to Full Announcement for details.

Eligible Applicants

Special district governments
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Small businesses
Private institutions of higher education
Public and State controlled institutions of higher education
State governments
For profit organizations other than small businesses
Independent school districts
City or township governments
County governments
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Public housing authorities/Indian housing authorities
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Native American tribal organizations (other than Federally recognized tribal governments)

Description

This Funding Opportunity Announcement (FOA), issued by National Institute of Diabetes and Digestive and Kidney Diseases, National Institutes of Health, solicits Research Project Grant (R01) applications from institutions/ organizations conducting research designed to identify healthcare system factors leading to disparate diabetes and obesity health outcomes.

Department of Health and Human Services
National Institutes of Health
Harmonization of Longitudinal Cross-National Surveys of Aging (R21) Grant

Award Ceiling: \$200,000
Award Floor:
CFDA Number: 93.866 -- Aging Research
Cost Sharing or Matching Requirement: No

Eligible Applicants

Private institutions of higher education
State governments
For profit organizations other than small businesses
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Small businesses
Public and State controlled institutions of higher education
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Description

-Purpose. This funding opportunity announcement (FOA) solicits Exploratory/Developmental (R21) grant applications from applicant organizations that propose ex ante or ex post harmonization of nationally representative panel surveys on aging with the Health and Retirement Study or international studies that utilize a survey instrument that is harmonized with the Health and Retirement Study. -Mechanism of Support. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism. -Funds Available and Anticipated Number of Awards. The FOA will support up to \$1 million per year in total costs over two years for all projects awarded under this FOA. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the mechanism numbers, quality, duration, and costs of the applications received.

Methods of Statistical Analysis of DNA Sequence Data for Studies Relating Variation to Disease (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-MH-08-040
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Sep 21, 2007
CFDA Number:	93.242 -- Mental Health Research Grants
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Private institutions of higher education
Native American tribal governments (Federally recognized)
Special district governments
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Independent school districts
Native American tribal organizations (other than Federally recognized tribal governments)
Public and State controlled institutions of higher education
State governments
Small businesses
Public housing authorities/Indian housing authorities
For profit organizations other than small businesses
County governments
City or township governments
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Description

-Purpose. This Funding Opportunity Announcement (FOA) will encourage the development of novel methods of statistical analysis of DNA sequence data in studies that aim to relate genetic variation to disease. Areas of interest include, but are not limited to, designing sequencing studies and statistical methods for relating the variation to phenotype; assessing the significance of the associations; incorporating population genetic factors such as population history, admixture, and natural selection; and finding sets of variants that may include functional variants. -Mechanism of Support. This FOA will use the NIH Research Project Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. The NIH has committed \$2 million total costs in FY 2008 (\$6 million over the total project period of three years) to fund applications in response to this FOA. Five to six awards are anticipated to be funded under this FOA, at up to \$250,000 direct costs per year per award, plus applicable Facilities and Administrative (F and A) costs. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. The total project period for an application submitted in response to this FOA may be up to three years.

Independent school districts
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Public housing authorities/Indian housing authorities
Private institutions of higher education

Faith-based or community-based organizations can apply.

Description

-NINR and NCI invites applications to establish Program Projects for Nursing Science Research on Interventions in Chronic Illness (P01). The program project grant mechanism is designed to support research in which the funding of several

interdependent projects as a group offers significant scientific advantages over support of these same projects as individual regular research grants. -Depending on availability of funds, support for this P01 FOA is anticipated to be approximately \$2.1 million. - Depending on the number of meritorious applications, support is anticipated for up to 2-3 Program Projects (P01s). Support may be requested for up to 5 years, not to exceed \$700,000/year, total (direct plus F and A) cost.

Modification 4

Document Type: Modification to Previous Grants Notice

Funding Opportunity Number: HHS-2008-ACF-ACYF-CX-0064

Opportunity Category: Discretionary

Current Closing Date for Applications: Jul 30, 2007 See link to full announcement for details.
IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.

Expected Number of Awards: 105

Estimated Total Program Funding: \$16,000,000

Award Ceiling: \$200,000

Award Floor: \$0

CFDA Number: 93.550 -- Transitional Living for Homeless Youth

Eligible Applicants

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Public and State controlled institutions of higher education

Native American tribal governments (Federally recognized)

Others (see text field entitled "Additional Information on Eligibility" for clarification)

County governments

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

Native American tribal organizations (other than Federally recognized tribal governments)

State governments

Special district governments

City or township governments

Additional Information on Eligibility:

Additional eligibility types: Local Governments Faith-based and community organizations are eligible to apply. Public and non-profit private entities and coordinated networks of such entities are eligible applicants under this announcement. Current TLP grantees with project periods ending on or before September 29, 2008, and all other eligible applicants not currently receiving TLP funds may apply for a new competitive TLP grant under this announcement. Current TLP grantees (including sub-grantees) with one or more years remaining in their project period may not apply for a new TLP grant for the community they currently serve. These grantees will receive instructions from their respective RHY Specialist on the procedures for applying for non-competitive continuation grants.

Description

Modification to the published announcement: Please delete the following under Priority Area 1, Transitional Living Program, Section III.1 Eligible Applicants: Current TLP grantees with project periods ending on or before September 30, 2008, and all other eligible applicants not currently receiving TLP funds may apply for a new competitive TLP grant under this announcement. Please replace the deleted language under Priority Area 1, Transitional Living Program, Section III.1 Eligible Applicants with the following: Current TLP grantees with project periods ending on or before September 29, 2008, and all other eligible applicants not currently receiving TLP funds may apply for a new competitive TLP grant under this announcement. All information in this notice of correction is accurate and replaces information specified in the 05/29/2007 Program Announcement. ANNOUNCEMENT AVAILABILITY: To access this Program Announcement please go to the ACF Grant Opportunities webpage at <http://www.acf.hhs.gov/grants/index.html> or to <http://www.Grants.gov>.

Agency for Health Care Research and Quality AHRQ National Research Service Award
Institutional Research Training Grant (T32) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-HS-08-001
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Oct 20, 2007
Award Ceiling:	\$500,000
Award Floor:	
CFDA Number:	93.225 -- National Research Service Awards Health Services Research Training
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Public and State controlled institutions of higher education
Independent school districts
County governments
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Native American tribal governments (Federally recognized)
Special district governments
State governments
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Public housing authorities/Indian housing authorities
Native American tribal organizations (other than Federally recognized tribal governments)
Private institutions of higher education
City or township governments
Faith-based or community-based organizations can apply.

Description

-The Agency for Healthcare Research and Quality (AHRQ) will award Ruth L. Kirschstein National Research Service Award (NRSA) Institutional Research Training Grants (T32) to eligible institutions as the primary means of supporting predoctoral and postdoctoral health services research training to help ensure that a diverse and highly trained workforce is available to assume leadership roles related to the Nation's health services research agenda. -The primary objective is to prepare qualified individuals for careers in health services research who will focus their careers on producing research that will be implemented to improve the health care of all Americans. -Because of the nature and scope of the proposed research, training needs will vary from application to application and it is anticipated that the size of each award will also vary. The total amount awarded and the number of awards will depend upon the number, quality, and costs of the applications received. AHRQ plans to fund a mix of new training programs and competing continuation programs, assuming a sufficient number of meritorious applications.

CFDA Number: 93.602 -- New Assets for Independence Demonstration Program

Description

The Administration for Children and Families, Office of Community Services (OCS) will accept applications for financial assistance to establish and administer Assets for Independence (AFI) Projects. These projects assist low-income people in becoming economically self-sufficient. They do so by teaching project participants about economic and consumer issues and enabling them to establish matched savings accounts called Individual Development Accounts (IDA) in order to save for a first home, a business or higher education. Grantees must participate in an on-going national evaluation of the impact of AFI Projects and IDAs. This is a standing announcement. It is effective until canceled or changed by the Office of Community Services. Applicants may submit applications at anytime throughout the year. OCS will review and make funding decisions about applications submitted by any of three due dates: March 15, June 15 and November 1. Unsuccessful applicants may submit a new application in any succeeding application period. Grantees must comply with terms of the Assets for Independence Act (AFIA) (Title IV of the Community Opportunities, Accountability, and Training and Educational Services Act of 1998, as amended, P.L. 105-285, 42 USC 604 note) in submitting an application and administering an AFI Project. The OCS Asset Building website (at <http://www.acf.hhs.gov/assetbuilding>) includes information about the AFI Program. The website presents a wealth of ideas and suggestions for developing and managing an AFI Project. In particular, it includes downloadable text of the AFI Act and a synopsis of grantee responsibilities imposed by the Act. It also features a downloadable guidebook, The AFI Project Builder that covers many topics and includes suggestions

and best practices for planning, starting and implementing an AFI Project. Applicants can visit the website to obtain more in-depth information regarding the requirements for applying for and implementing an AFI Project .NOTE: The Office of Community Services announces two informational conference calls series. (See amendment 2 of the full announcement.)

Department of Health and Human Services
National Institutes of Health
Research on Interventions that Promote Research Careers (R01) Grant

Current Closing Date for Applications:	Oct 23, 2007
Archive Date:	Nov 22, 2007
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
CFDA Number:	93.859 -- Biomedical Research and Research Training

Description

-Purpose. The purpose of this funding opportunity is to support research that will test assumptions regarding existing or potential interventions that are intended to increase the preparedness for careers in biomedical and behavioral research, with a particular interest in those interventions specifically designed to increase the number of underrepresented minority students entering careers in biomedical and behavioral research. The proposed research need not be restricted to underrepresented minority students. Comparative research which analyses the experience of all ethnicities in order to place that of underrepresented students in context and to learn whether and how interventions should be tailored to make more underrepresented students successful in biomedical careers may well be particularly illuminating and is, therefore, encouraged. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. The total amount to be awarded is approximately \$2.4 million. Approximately 6-8 awards are anticipated. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

Department of Health and Human Services
Health Resources & Services Administration Targeted State Maternal and Child Oral Health
Service Systems Modifications 1 and 2

Current Closing Date for Applications:	Jul 06, 2007
Expected Number of Awards:	20
Estimated Total Program Funding:	\$3,200,000
Award Ceiling:	\$160,000
Award Floor:	
CFDA Number:	93.110 -- Maternal and Child Health Federal Consolidated Programs

Description

The purpose of this grant program is to support States in implementing preventive and restorative oral health service programs for Medicaid and State Children's Health Insurance Program (SCHIP) eligible children, and other underserved children and their families. State strategies specifically will address improvement within one or more of the following three (3) program areas: expanding services to children with special health care needs; increasing the number of children receiving age 1 dental visits; and, increasing the number of children completing restorative treatment needs identified through sealant programs. The above may be accomplished through State oral health collaborative strategies designed to move the State oral health programs toward program sustainability, establishing inter-professional (med/dent interface) referral networks and expansion of post-sealant follow-up services.
